VISION OF THE COMMISSION

To be a world-class education intervention and regulatory agency for the promotion of uniform, qualitative and functional basic education.

MISSION OF THE COMMISSION

The Commission shall operate as an intervention, coordinating and monitoring Agency to progressively improve the capacity of States, Local Government Agencies and Communities in the provision of unfettered access to high quality basic education in Nigeria.

CORE VALUES OF THE COMMISSION

- *Honesty and Accountability*
- *Integrity and Transparency*
- *Teamwork with Commitment*

FOREWORD

The 2021 Annual Report is a summary of the activities, projects and Programs the Commission carried out through its various Departments/Units. These activities were carried out in collaboration with the relevant stakeholders such as the State Universal Basic Education Boards/FCT Universal Basic Education Board (SUBEBs/FCT-UBEB) Local Government Education Authorities (LGEAs) and International Development Partners (IDPs).

The Commission, in an effort to improve its effectiveness and strengthen its capacity for basic education service delivery upgraded two units to Departments. These are the Department of Internal Audit and Department of Procurement.

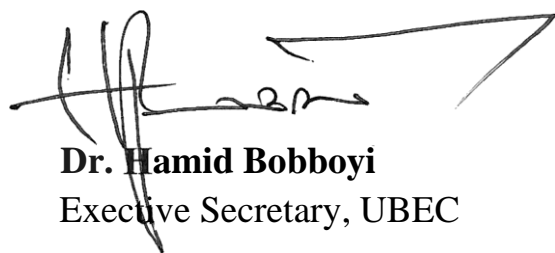

In the year under review, the Commission initiated and funded some notable projects spread across the six geopolitical zones. These projects include construction of 37 model Smart Schools, one in each of the States and FCT as well as provision of furniture for learners and teachers.

To ensure that States and FCT are on track in the implementation of basic education, the Commission carried out various activities which include themonitoring and evaluation of projects and Programs; financial monitoring;supply and verification of instructional materials and ICT equipment; sensitization/mobilization/advocacy of stakeholders at different levels; Quality Assurance of schools; capacity building of teachers and education managers.

International Development Partners (IDPs), like the World Bank and UNICEF provided both financial and technical support in building the capacity of education managers for the purpose of ensuring effective basic education delivery. They also supported States and FCT in the development of their 2020-2023 State Medium Term Basic Education Strategic Plans (SMTBESPs).

The achievements recorded in 2021 were not without challenges, however the Commission was able to come up with different strategies to overcome some of them.

It is hoped that Stakeholders of diverse background will find the Annual Report useful.

Dr. Hamid Bobboyi
Executive Secretary, UBEC
